FINANCIAL AND COMMERCIAL. MONEY MARKET.

SAT RDAY, Aug. 30-6 P. M. The stock market was decidedly blue to-day. The tendency was downward from the opening to the close. At the first board Cumberland Coal declined per cent; Ward Coal Company, 1; Illinois Central bonda, 4; Illinois Central rights, ½; Erie, ‡; Reading, 4; Michigan Southern, ‡; New York Central, ‡; Cleveland and Toledo. ‡; Chicago and Rock Island.

4. Milwaukie and La Crosse Railroad advanced \$ per cent; Indiana State 5's, J. The transactions in Erie, Central, Reading, and Cleveland and Toledo were quite large. The shorts do much more than the bulls in sustaining prices for the moment Within the past two or three days several thousand shares of the leading railroad stocks have been sold to the shorts privately, at prices considerably under those current at the time. The effect of this will oon be visible. The sales referred to were of Reading, Erie and Central, generally at about one per cent under the market prices. This stock will soon go out on contracts under seller's option, which are about maturing, and fall into weak hands, who will be compelled to realize. .We do not see any thing to prevent a steady decline in the stock market. There are no buyers, and the street is loaded down with slocks. Under a tight money market it will be more and more difficult to hold, and when compelled to sell, it will be as difficult to find buyers. After the board the market was heavy. There were plenty of sellers and a great scarcity of buyers. There was no second board this afternoon.

The steamship Baltic, from this port for Liverpool to-day, carried out \$203,000 in specie.

The Assistant Treasurer reports to-day	as follows:
Paid on Tressury account	\$498,646 59

Baltimore and Ohio Railroad Company are still exerted to their full capacity in transporting coal East; also, the boats on the Chesapeake and Ohio Canal. Boats arriving in the evening are loaded and prepared to depart in the morning. The Swanton and Lonaconing companies are now shipping rather extensively by the canal. These are the only companies shipping by this avenue from the George's Creek region. There is still an abundant supply of water at this point, and it is now hoped that nothing will occur to interrupt navigation until the close of the season. The shipments for the week ending August 23 are as follows:—Shipped over the Cumberland Coal and Irom Company's railroad, 7,498 tons; over the Cumberland and Pennsylvania railroad 4,939; over the George's Creek road, 7,856, and over the Hampshire road, 1,983 tons—total for the week, 21,377 tone; and for the season, 423,470 tons. There were 62 boats descended the canal for

the past week, carrying 6,510 tons of coal.

The Boston Advertiser gives the following remithe greatest and safest investments of the day:--

the greatest and safest investments of the day:—

Vermout Central Rainroad Five Years Ago.

In the report of this road for August, 1851, the stock bolders were urged to take a loan of \$1,000,000 to cancel floating debt. The advantages promised were, a dividend of three per cent for any months, from July to January tellowing, with a surplus, after de lecting Canada rent and stock worth \$50, or per, Jan. 1, 1852. "If the whole debt is thus provided for," adds the report, "the road becomes a fold property which prodent men will be willing to hold, and leave as an inheritance to their children; and the Vermont Central becomes at once and lorever a permanent divides d payfog investment." The estimated receipts per month for the next say months were \$30,000. In August, 1861, a coatemporary had the following good one:—"Next to the dividend paying railroad stocks are the 7 per cent mortgage bonds of the Ogdensburg and Rutland railroads as lucrative and sale investments, particularly as they can be purchased at three or four percent discount (96 to 87) in consequence of the present scarcity of money."

The above extract is a sample of the reliance that

The above extract is a sample of the reliance that can be placed upon railroad reports. The Vermont Central Railroad stock is now selling at 1 per cent.

The Chicago, Iowa and Nebraska road, which is to be a continuation of the Galena and Chicago line. Dixon and Fulton branch, due west across the State of Iowa, has been favorably reported on by a committee of the Galena and Chicago directors. The

ner, Walter L. Newbury and Hugh T. Dickey, say

ner, Walter L. Newbury and Hugh T. Dickey, say in concluding their report:—

That from all the examination your committee have made, they believe that the line of the said Chicage, lowa and Nebraska Rairoad from Chnion to Cedar flapids runs through a fertile and tolerably well settled country; that the grade of the road is not difficult, and that it may be very cheaply built, and bears a very favorable comparison, as to cost, with other Western roads, and can be made, if so constructed, to pay a fair and reasonable remueration to the stockholders of the road. Your committee further report that they believe that the construction of the Chicago, lowa and Nebraska Railroad would greatly benefit the Galena road, by adding materially to the business of the latter, and as a consequence of this belief, think the stockholders of the Galena road would advance their own interests by adding in the construction of the other, while they would be rewarded with fair dividends upon any subscriptions to stock that might be made to aid the construction of the flowa road. The persons now embarked in the Chicago, lowa and Nebraska Railroad are nen of good character, bearing excellent reputations as business men.

		luring the week.	
The week	pened wit	h much activity	in the dry

goods trade, and jobbers generally have been wel employed. / The importations during the past week have been in excess of those for the same period last year. Within the past few days the regular trade have complained that many of the reports about yellow fever on Long Island have been very much exaggerated; which, from the known fact that the city is totally free from yellow fever, and was never more healthy at this season of the year, have had go influence on the minds of our citizens. They have, however, been, it is said industriously circulated south and west of Philadelphia, and in a way to create an impression on the minds of many strangers coming in this direction, that it would be unsafe for them to visit New York. So far, however, such reports have not produced the effect they were in tended to have, for our hotels have been well pat, ronized with merchants from all sections of the Union as well as from Canada, and the large auc tion sales of French staple and fancy goods of the importations of some of our large French houses, have been well attended by large companies of spirited bidders. The prices of these goods have been well tested and prices well sustained. The goods sold at public auction this week have consisted of merinos, cashmeres, de laines, bombazines and dress silks, of the importations of Messrs. Thirion, Maillard & Co., with the remainder of the importation of Messrs. Benkard & Hutton. The latter sale was held to day, by Messrs. S. H. & C. W. Foster, and which was their first large sale of the season The heaviest lines consisted of French merino cloths. cassimeres and muslin de laines, all of which sold well, while a large number of cases were duplicated. The only line that exhibited a want of spirit was that of bombazines, which rather dragged. Messrs. Wilmerding, Mount & Priest heid a heavy sale of silks on the 27th inst., which was quite spirited, and the new styles were sought for with a good deal of competition. A number of cases of new and desirable patterns were bought by A. T. Stewart & Co., and re-sold in a few hours afterwards at an advance. The same house held a sale of linen goods to-day, which went off very well at about current previous rates. Wilmerding, Hoguet & Humbert heid a sale of French kid gloves, which went off very well. The jobbers have been quite basy, chiefly with Western merchants. It is still rather early for a large Southern trade. There is less complaint about collections, with few failures reported. Upon the whole the prospects for the remainder of the season appear quite promising. The export demand for cotton piece goods was active, and for the week ending Angust 23 about 118 packages were shipped, chiefly for Brazil, valued at \$5,032. The total value of exports since January I have amounted in value to \$30,509, against \$20,414 for the same period in 1855. From Boston, the exports for this year, to the close of the past week, amounted to \$26,107, against \$17,762 for the same time last year. With this large increase in exports, and a good home demand for domestic grades, the country will consume a larger amount of raw cotton the present year than for any previous year in the history of the country, and which is estimated at 700,000 bales. We have no important change to notice in the prices of domestic goods, which fluctuate slightly by the supplies and the new styles brought out Maillard & Co., with the remainder of the importation of Messrs. Benkard & Hutton. The latter sale
